Supported by interesting videos and articles, students will explore Germany's economic strength, its family-run manufacturing companies, its dual system of education and apprenticeships, the unique culture of its people, its recent reunification and influx of refugees, and its leadership within the EU. C271 meets two times weekly with your team and once in class. Our in-class weekly meeting includes lively discussion leading to brief argument papers and team presentations. X 152: Mapping Your Future: How to Make the Most Out of Your College Experience is an eight-week, two credit, graded seminar course designed for students to investigate the purposes of an undergraduate education at IU Bloomington and to expose them to the array of skills, tools, and opportunities that academic advisors, career coaches, and the university have to offer. The assignments and activities in the course include a mixture of readings, class discussions, journaling, out-of-class-activities, and a culminating semester project. By the end of the course, students should have a better understanding of themselves, their academic and career interests, and a plan to maximize their opportunities as an IU Bloomington student.

### Commentary

- Students must take lecture exams 4:50-5:50pm, Fridays during the semester. Tentative dates are Feb 2, Mar. 2, Apr. 6. Students missing both labs first week of class may lose their space in ANAT-A 215. If labs are filled, waitlist multiple sections to increase chances.
