Above class requires permission of instructor. Most entry level archaeology jobs require a field school and this class provides that qualification. This course will be held off campus in St Clair County Illinois and is an opportunity for students to learn the methods and theories of anthropology by actually doing archaeology. Students will conduct excavations in a 1000 year old village and survey areas surrounding mounds and caves. Housing will be provided but housing fee and instead of a textbook students will need to assemble a dig kit. For more information contact professor Alt suisalt@indiana.edu

Course descriptions:

MATH-M 343: This course is for students interested in learning the fundamentals of differential equations, including first and second order equations and systems of differential equations. Students will also develop skills in numerical methods for solving differential equations.

MATH-M 365: This course covers the basic principles of probability and statistics, including probability theory, random variables, and statistical inference. Students will learn to apply these concepts to real-world problems.

MATH-M 373: This course is designed for students who are interested in professional practice. It provides an opportunity for students to gain practical experience in a specific field.

MATH-M 390: This course involves reading and research, allowing students to pursue their own research projects under the guidance of a faculty member.

MATH-M 415: This course covers elementary complex variables with applications, including complex functions, integration, and series.

MATH-S 499: This course is for honors students and requires permission of a faculty member who will act as supervisor.

MSCH-V 334: This course offers current topics in media, allowing students to explore various areas of media studies.

MSCH-A 300: This course introduces students to advertising and integrated marketing communications.

MSCH-A 300 GAME PRODUCTION: This course is designed for students interested in game production, covering topics such as game design and development.

MSCH-T 311: This course provides a comprehensive history of electronic media, including radio, television, and digital media.

MSCH-U 334: This course offers current topics in media, allowing students to explore various areas of media studies.

MSCH-R 348: This course covers planning and research in media.
